Claims 1-5, 7-10, and 12-14 are allowed.

Claims 6 and 11 are canceled.

The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or suggest a stamper and transfer apparatus as defined in the claims of the instant application. The closest prior art Okazaki et al. (U S Patent No. 4,723,903) discloses a stamper with surface layer, wherein surface layer having a concave surface, and another single layer as a buffer, is disposed on the opposite side of the pattern (figures 2a-2d).

But it fails to teach or suggest a buffer having a first and a second portion with different moduli elasticity, which are disposed at back of the stamper layer as defined in claim 1 and figures 1 and 5 of the instant application, and further fails to teach or suggest the buffer which is formed on a back side of the stamper, having different thicknesses as defined in claim 9, and figure 2 and 6 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
